Our legacy of excellence

Every moment we are on a constant quest of excellence in a world with unlimited possibilities, in a world which knows no boundaries, in a world where everyone writes their destiny; Mark Your Excellence with Intellio.

Based in Germany, world's epicenter of fine writing instruments, Our home is our inspiration and remains a driving force behind everything we do as a brand. We combine our legacy with our shared history with the heritage with the entirety of Europe. Geometric shapes and patterns of architecture, the color palette of artists, stories of individuals, and cultural movements from across Europe have influenced our design and aesthetics. Intellio's writing instruments become an expression of the legacy and culture that inspires us while representing continued excellence.

At Intellio, our respect for our culture and tradition stems right from our identity, and a peacock feather forms the basis of it. Across cultures and civilizations, it has stood as a symbol of knowledge, patience and represents the ability to thrive when faced with adversity; virtues and attributes quintessential in our quest for excellence. The feather quills were used for centuries by royalty and philosophers as the peacock itself was a symbol of royalty. Intellio is a manifestation of our stories past and contemporary future. The lower part of the logo takes the shape of a pen tip to reflect what we do & represent as a brand.

Every writing instrument reflects on us and our heritage of crafting fine writing instruments.

Through every series, we seek to share the passion with which our family of designers and craftsmen bring it to life.

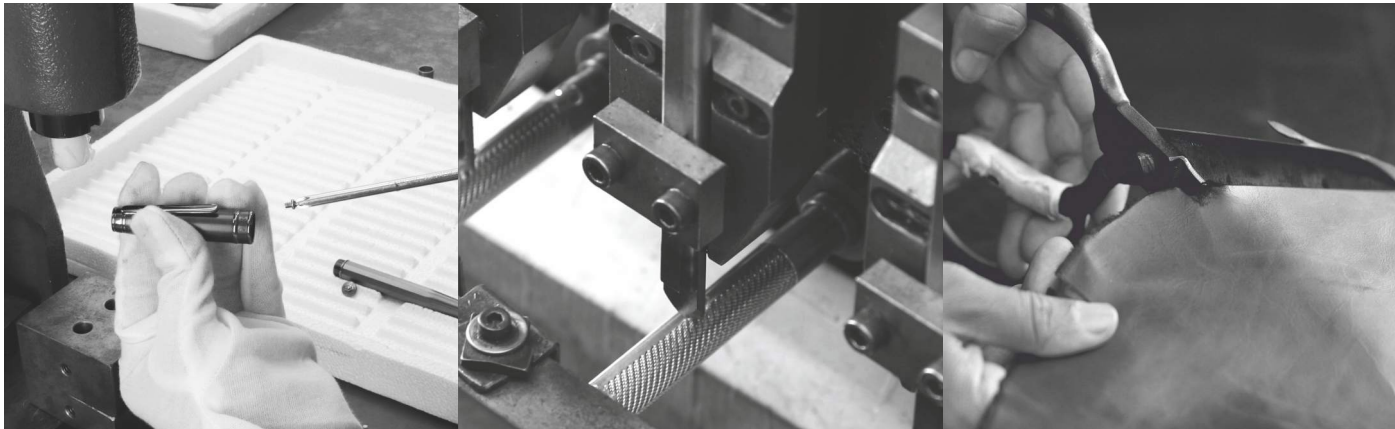

Conceptualization

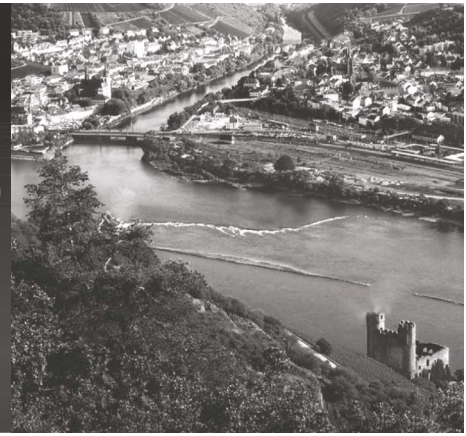

Aesthetics and quality are cornerstones of our products. Making an impact on our customers' lives and enabling them and the world around us are cornerstones of our ethics. We strongly believe that the culture we want to establish needs to interwind with what it creates and how it does so.

We conceive aesthetics in broad terms: as a representation of culture, as a representation of creative freedom, an appreciation for the thought, imagination, and emotion. We profoundly conceive quality: as a careful and attentive vision of the whole and the details, both in the things we make and the relations we enjoy and propense.

At Intellio, we seek to create pens that inspire and empower its user in their quest of excellence. Days and months go in to creating a pen that would serve that purpose. Our team of designers and craftsmen traverse the journey from the ideation of the series to the individual details of parts, from the raw materials to the writing experience. This is made possible by the commitment of these individuals, driven by a deep passion for writing instruments and dedication to learning and improving with every collection they help make.

Our quest

for excellence

Materials & Craftsmanship

At Intellio we make the active choice of only using precious metals as the core components of our writing instruments. These precious metals are carefully selected for every pen to complement the shape and form. With a long-established tradition of making writing instruments and the knowledge of expert craftsmen, Intellio continues to combine ancient manufacturing techniques with modern ones.

Invented in France in the late in 18th Century, we use the highly intricate Guilloché technique to craft our designs on precious metals. We are able to each fine patterns that become an intrinsic part of the aesthetics of the pen, adding a unique panache to it.

The colors bring the writing instrument to life and extreme care is given to this process as we try to bring the designer's vision to life. Multiple layers of lacquer instruments. Once the lacquer dries another process gets started to achieve different finishes ranging from matte to glossy. We use specially curated lacquers for our pens to make sure the writing instruments brings joy to you.

Our pens are crafted with skills and passion passed down through generations and then assembled by hand for you to experience it. Every single product is carefully checked, tested, and approved before arriving in our stores or being packaged in our beautiful boxes to be delivered to you.

World's Most Luxurious Writing Experience

At Intellio, we aim at providing an unparalleled writing experience, something reflected in each nib. This is ensured by our highly qualified artisans. They use their decades of experience and a genuine knack for their craft to turn fine pieces of metal into the piece that forms the heart of every fountain pen. At the same time, the research and development team constantly strives to innovate your writing experience. Our writing instruments will always provide you with a true 'Made in Germany' as we use the most advanced refills that glide through effortlessly on paper.

GERMANY

Customer Service

All Intellio writing instruments in need of repair or other services, such as maintenance, cleaning, nib exchange, etc., can be handled by our Intellio Service Team. We ask our international Intellio dealers to kindly follow these steps:

1. Contact your local Intellio distributor in your country and describe the customer inquiry. The Intellio distributor will clarify further steps with the export customer service at Intellio headquarters.
2. You as a Intellio dealer receive all information from the local Intellio distributor, so that you can clarify the further procedure in direct contact with the end consumer.
3. If the writing instrument needs to be sent in, please send it directly to your local Intellio distributor – always individually packed in our repair bag! Very important: Include detailed information on the nature of the fault or a description of the desired service.
4. Our repair service will send the repaired writing instrument back to the local Intellio distributor and get in contact with you as the dealer. Then the repaired writing instrument will be sent to you, so you can forward it to the end consumer.

Personalization

At Intellio, we pride ourselves for providing a companion for you and your loved ones in your quest for excellence. Curating personal relationships and experiences is of utmost importance to us and personalizing your writing instruments or leather accessories is one way of showcasing that. Intellio's engraving/embossing services helps you make the writing instrument or leather accessory truly your mark of excellence. The service can be availed for a small charge at the time of purchase from the website or can be achieved by sending the writing instrument to your nearest Intellio Agent or Intellio Service Centre. To know more please contact us on contact@intelliopens.com.

Mystique

A confluence of heritage techniques and contemporary silhouettes, Mystique's rare design stands out for its allure, the depth of color in the all-over satin-matte finish underpins the plated trims two fascinating finishes. Born out of the creativity and experience of our design team and master artisans, Mystique combines the skills of the lacquerers and goldsmiths to create a timeless writing instrument. The fountain pen features a hand-fitted nib with an advanced feed system, while the roller features the most advanced refill, both delivering unmatched smoothness and a pleasurable German writing experience.

Mystique is designed and built with exceptional levels of technical and artistic accomplishment. The mystery of mystique only unravels in the hands of its owner.

INTELLIO'S FDR

Intellio pays homage to an individual who transcended conventional wisdom to wire values that would form the basis of a new age of governance, Franklin Delano Roosevelt. The eponymous writing instrument celebrates freedom and adversity.

**The only thing we have to
fear is fear itself.**

INTELLIO'S JEWEL

Intellio decided to explore new boundaries and try a change in perspective, go beyond tradition, and challenge conventional form. Impressionism & the post-impressionism era of art served as the cornerstone in our ideation of the pen as we combined geometry and nature.

The series adopts a hexagonal shape with the Starry Night series, Van Gogh's crown jewel, begin the inspiration behind the silhouettes of the pen.

“ I don't know anything with certainty, but seeing the stars makes me dream. ”

ARNO

The bank of River Arno, since the 13th century, is the home to the finest quality leather in the world, Santa Croce Sull'Arno. Flowing through the heart of Tuscany, Arno encapsulates the spirit and creativity of Tuscany. Arno by Intello represents the tradition and artisanship that is synonymous with Tuscany leather goods. Each piece in the collection – made unique by artisan manufacturing traditionally associated with Florence and Tuscany – becomes a piece of a life lived, a sign of style, a travel companion that expresses the new millennium with a spirit to mark their excellence.

Every single product is carefully checked, tested, and approved before arriving in our stores or being packaged in our beautiful boxes to be delivered to you.
